# VAISALA

# GMP80P Portable Carbon Dioxide Probe with Pump Sampling

#### **Features**

- Measurement range 0-20 %CO<sub>2</sub>
- Operating temperature range +15 ... +40 °C (+59 ... +104 °F)
- Easy CO<sub>2</sub> sampling through standard incubator sampling ports
- Stainless steel pipe and plastic tube options for sampling
- Compatible with Vaisala Indigo80
   Handheld Indicator and Insight PC
   software
- Excellent long-term stability
- · Reliable and accurate
- · Calibration certificate included

Vaisala CARBOCAP® Portable Carbon Dioxide Probe with Pump Sampling GMP80P combines intelligent  $CO_2$  measurement with pump-aspirated sampling functionality. This robust and portable measurement device is designed for use in demanding applications, such as life science incubators, where stable, reliable, and accurate performance is required.

#### **GMP80P** is ideal for:

- CO<sub>2</sub> sampling from incubators
- Spot-checking fixed CO<sub>2</sub> transmitters
- Sampling from areas otherwise difficult to access

#### Ease of use with Indigo80

 ${\rm CO_2}$  measurement data can be monitored with the compact Vaisala Indigo80 Handheld Indicator connected to GMP80P. Indigo80 can be used for short-time logging of measurement data, as well as for calibrating and adjusting GMP80P.

Indigo80 has two cable ports for connecting Vaisala probes or transmitters to the indicator for measuring a wide range of parameters. GMP80P is powered by Indigo80, which can supply power for up to two GMP80P probes.

For more information on Indigo80, see vaisala.com/indigo80.

#### Flexible connectivity

For easy access to field calibration, device analytics, configuration functionality, and powering, GMP80P can also be connected to a PC running Vaisala Insight PC software for Windows®. For more information on Insight, see vaisala.com/insight.

### **Applications**

GMP80P is ideal for life science incubators and for all demanding applications where stable and accurate percentage-level measurements are needed.

# Technical data

### **Measurement performance**

| Measurement range                    | 0-20 %CO <sub>2</sub>       |  |
|--------------------------------------|-----------------------------|--|
| Accuracy 1) 2)                       |                             |  |
| At 5 %CO <sub>2</sub>                | ±0.1 %CO <sub>2</sub>       |  |
| At 0-8 %CO <sub>2</sub>              | ±0.2 %CO <sub>2</sub>       |  |
| At 8-20 %CO <sub>2</sub>             | ±0.4 %CO <sub>2</sub>       |  |
| Calibration uncertainty              |                             |  |
| At 5 %CO <sub>2</sub>                | ±0.07 %CO <sub>2</sub>      |  |
| At 20 %CO <sub>2</sub>               | ±0.27 %CO <sub>2</sub>      |  |
| Long-term stability                  |                             |  |
| At 0-8 %CO <sub>2</sub>              | ±0.3 %CO <sub>2</sub> /year |  |
| At 8-12 %CO <sub>2</sub>             | ±0.5 %CO <sub>2</sub> /year |  |
| At 12-20 %CO <sub>2</sub>            | ±1.0 %CO <sub>2</sub> /year |  |
| Start-up, warm-up, and response time |                             |  |
| Start-up time at +25 °C (+77 °F)     | < 10 s                      |  |
| Warm-up time to full specification   | < 4 min                     |  |
| Response time (T90)                  | < 1 min                     |  |
| Other                                |                             |  |
| Sampling frequency                   | 1 s                         |  |

- At 25 °C (77 °F) and 1013 hPa (incl. repeatability and non-linearity).

  As the gas sample dries during the sampling process, the CO<sub>2</sub> concentration of the dry sample will be higher than in the wet sample taken in the measurement environment. This is due to water condensing off the warm gas sample as it cools down. To determine the most accurate measurement values in your sampling environment, see GMP251 and GMP80P User Guide (M211799EN) at docsvalsala.com for a table listing the dilution coefficients for gas samples taken at different temperatures.

### **Operating environment**

| Operating environment              | Indoor use               |
|------------------------------------|--------------------------|
| Operating temperature              | +15 +40 °C (+59 +104 °F) |
| Storage temperature                | -20 +60 °C (-4 +140 °F)  |
| Operating humidity                 | 0-95 %RH                 |
| Storage humidity                   | 20-85 %RH                |
| IP rating                          | IP4X                     |
| Flow rate of sampled/aspirated gas | 0.3 I/min                |

# **Powering**

| Operating voltage   | 12-30 V DC                       |
|---------------------|----------------------------------|
| Power consumption   | Typical: 0.7 W<br>Maximum: 0.9 W |
| Current consumption | 60 mA typical at minimum voltage |

# **Digital communication**

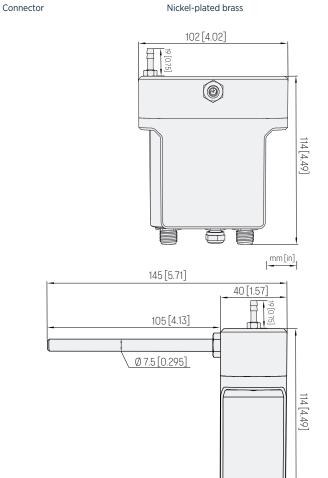

| Digital output | RS-485  |  |
|----------------|---------|--|
| Digital output | 113 103 |  |

# **Compliance**

| EU directives and regulations       | EMC Directive (2014/30/EU)<br>RoHS Directive (2011/65/EU) as<br>amended by 2015/863<br>REACH Regulation (EC 1907/2006) |
|-------------------------------------|--|
| Electromagnetic compatibility (EMC) | EN 61326-1, basic electromagnetic<br>environment<br>FCC part 15 B, Class B<br>ICES-3 / NMB-3 (Class B)                 |
| Compliance marks                    | CE   |
|                                     |  |

# **Mechanical specifications**

| Cable connector type   | M12 5-pin A-coded male  |
|--|---|
| Barbed fitting for gas outlet (optional)                                       | For tube with ID 4 mm (approx. 5/32 in)   |
| Dimensions (H × W × D)   |   |
| Probe body (incl. cable connectors), without sampling pipe:                    | 114 × 102 × 40 mm<br>(4.49 × 4.02 × 1.57 in)  |
| Depth with sampling pipe:  | 145 mm (5.71 in)  |
| Weight   | 410 g (14.46 oz)  |
| Materials  |   |
| GMP80P (excluding GMP251 probe):   |   |
| Housing Sampling pipe Barbed fitting for gas outlet Connectors (on the bottom) | Aluminum and polyamide<br>Stainless steel<br>Nickel-plated brass<br>Nickel-plated brass |
